Team Active Bonu

10 SP 01 ACTIVE POINT

1 ACTIVE POINT = RS.100/- AS TEAM ACTIVE BONUS)

The Team Active Bonus is earned when team activity takes place and SP (Sales Points) are generated. A Direct Seller can achieve Active Points by generating SP from two teams. One Active Point is achieved upon completing 10 SP from the teams (5 SP from one team counts towards an Active Point); essentially, a total of 10 SP is reached through the matching of every 5 SP, and one Active Point is generated for every 10 SP completed. For each Active Point, the Safeddeal Direct Seller receives ₹100 as the Team Active Bonus. There is a monthly capping of 10,000 Active Points. Condition: One's own User ID must be active, and there must be 10 SP of business generated through direct referrals.

Prime Team Bonus is a target-oriented team income earned based on work performed and SP (Sales Points) generated within your direct and parent teams. To qualify for this income, a total of 20 Prime Levels must be achieved. As shown in the chart above, there is a specific target for achieving each Prime Level; the Prime Team Bonus is awarded upon the achievement of each level. Becoming a 'Prime Star' is mandatory to qualify for Prime Levels, and completing 100 Self-PP is required to become a Prime Star. If the next Prime Level has already been achieved, the time calculation for the subsequent level will commence only after the bonus for the current Prime Level has been received.

RDAPP = REQUIRED DIRECT ACCUMULATIVE PRIME POINTS

बिज़नेस बिल्डिंग बोनस Business Building Bonus

Objective. The Business Building Bonus is designed to encourage Direct Sellers to build large-scale business and earn additional monthly income. 10% of the Company's Total Monthly Business is distributed among three clubs:

- **Champion Club – 5%**
- **Top Ten Club – 2.5%**
- **Red Club – 2.5%**

Champion Club – 5%

To qualify, a Direct Seller must achieve a minimum 500 SP : 500 SP matching business between both teams during the month. The 5% of the company's total monthly business is distributed equally among all Champion Club Achievers of that month.

Top Ten Club – 2.5%

The Top Ten Club recognizes the ten highest-performing Champion Club Achievers each month. Selection is based on the highest matching business achieved during the month. The 2.5% of the company's total monthly business is divided equally among the selected top ten achievers. In case of a tie, the company's prescribed tie-breaker/eligibility rules will apply. Achieving Champion Club is mandatory for Top Ten Club eligibility.

Red Club – 2.5%

The Red Club is exclusively for Diamond Star Achievers. Once a Direct Seller achieves the Diamond Star Rank, they become a Red Club Achiever, subject to the Company's prescribed conditions. The 2.5% of the company's total monthly business is distributed equally among all eligible Red Club Achievers.

Understand with an example

Suppose the company's total turnover for a month is ₹3 crore, and for that month, the achievers are: Champion Club = 100, Top Ten Club = 10, and Red Club = 5. The bonus distribution would be as follows:-

Champion Club. 5% of the company's total turnover: $₹3,00,00,000 \times 5\% = ₹15,00,000$ (15 Lakh). Distribution among 100 Champion Club achievers: $₹15,00,000 \div 100 = ₹15,000/-$ per Champion Club achiever.

Top Ten Club. 2.5% of the company's total turnover: $₹3,00,00,000 \times 2.5\% = ₹7,50,000$ (Seven Lakh Fifty Thousand). Distribution among Top Ten Club achievers: $₹7,50,000 \div 10 = ₹75,000/-$ per Top Ten Club achiever.

Red Club. 2.5% of the company's total turnover: $₹3,00,00,000 \times 2.5\% = ₹7,50,000$ (Seven Lakh Fifty Thousand). Distribution among 5 Red Club achievers: $₹7,50,000 \div 5 = ₹1,50,000/-$ per Red Club achiever.

Top Ten Club – Terms and Conditions for Selection. Only 10 Champion Club achievers will gain entry into the Top Ten Club each month. Selection for the Top Ten Club will be based solely on the matching business generated during that month. Among the Champion Club achievers, the 10 Direct Sellers with the highest matching business will be designated as that month's Top Ten Club achievers. In the event that two or more Direct Sellers have equal matching business, additional eligibility criteria or tie-breaker rules determined by the company will apply. Eligibility for the Top Ten Club will be determined based on monthly performance. Qualifying as a Champion Club is mandatory for selection into the Top Ten Club. Bonus distribution will be based on eligibility recorded in the company's records and the turnover for the relevant month.

Every user of Safedea is positioned at a specific level within the company's parent team structure. Just as the number of users in the company's parent team grows with each level, the number of users in an individual user's or direct seller's parent team also increases correspondingly. For instance, when the company's second level is completed, the user at the first level completes their own first level. Similarly, upon the completion of the company's third level, the user at the second level completes their first level, while the user at the first level completes their second level. As shown in the chart above, the number of users in the parent team increases with each level – two users upon completing the first level, four upon the second, eight upon the third, and so on. You receive a 'Team Proactive Bonus' of one rupee per SP (Sales Point) generated from product purchases made by users across levels one through twenty in your parent team. To qualify for the Team Proactive Bonus, achieving 'Super Star' status is mandatory. To become a Super Star, you must complete 50 SP in self-purchases and 150 SP through direct referrals.
